KEY RISKS ASSOCIATED WITH THE FUND

Please be advised that if the Sophisticated Investor invests in units through an institutional unit trust adviser ("IUTA") which adopts the nominee system of ownership, the Sophisticated Investor would not be considered to be a unit holder under the Deed as the Sophisticated Investor's name will not appear in the register of unit holders. The Sophisticated Investor may consequently not have all the rights ordinarily exercisable by a unit holder (for example, the right to call for a unit holders' meeting and to vote thereat).

Equity risk	Generally, equity risk may arise in the following forms, i.e., equity risks related to external factors and equity risks related to company-specific factors. All of these related equity risks can adversely affect the prices of equities, which would negatively impact the performance of the Fund.
Warrant risk	The Fund's investment in warrants will be facing high volatility as the

	price, performance and liquidity of warrants are typically linked to the underlying stock. However, the price and performance of such warrants will generally fluctuate more than the underlying stock because of the greater volatility of the warrants market.
Currency risk	This risk is associated with investments denominated in currencies different from the base currency of the Fund. When foreign currencies move unfavourably against the USD, these investments may face currency loss in addition to any capital gains or losses, which will affect the NAV of the Fund, and consequently the NAV per unit of the Fund.
Single sector risk	As the Fund will only be investing in gold sector, the Fund would be significantly affected by developments in this sector. Due to the sector concentration, the Fund may be more volatile than other funds and therefore its portfolio value can increase or decrease more rapidly compared to other funds.
Liquidity risk	Liquidity risk refers to the ease of liquidating an investment depending on the investment's volume traded in the market.

Note: The abovementioned risks which investors should consider before investing into the Fund should not be considered to be an exhaustive list. Sophisticated Investors should be aware that investments in the Fund may be exposed to other unforeseeable risks from time to time. Sophisticated Investors are advised to consult their professional adviser before investing. Please refer to the Information Memorandum under "Risk Factors" for further details on risks.
